DIN 50049-3.1B and EN 10204-3.1.

To Whom It May Concern:

We would like to assure you that the Quality Assurance Department at Bayou Steel is completely independent of production and manufacturing. Furthermore the quality department performs all testing and inspection for verification and release of material for shipment to customers.

Certified material test reports provided to our customers are based on tests and inspections performed at Bayou Steel by the quality assurance department, and comply with the requirements of DIN50049, paragraph 3.1B for inspection certificates, and EN10204-3.1 Inspection Certificate B requirements.

If I may be of any further assistance, please do not hesitate to call me.
